sverything they had for such beautiful teeth as so and so had.

The true secret is not so much in the perfectness of the teeth as in the smoot like whiteness and the brilliant polish.

All teeth are capable of this with proper care. Washes and pastes should be avoided as they are injurious as are also many of the powders. A property prepared powder, however, is the only right and perfect thing to cleanes and preserve the teeth. This we have succeeded in producing after much labor had expense. The formula is by one of the most noted dentists of of if is country and is absolutely perfect.

SAPOHENTA—Is the mans we have adopted for it, and we are the exclusive owners and manufacturers. We guarantee Sapedenta to be the only perfect tooth powder on the market. That it will prevent decay and render the teeth more beautiful with less trouble than any other preparation to be had.
